Design Guideline

- Separate in patient zone and out patient zone
- Decentralize parking space to minimum walking distance
- Provide skywalk to direct connection
- Maximum nature view, light, vegetation to help healing, reduce stress
- Use shopping retail and hotel style to provide a welcome atmosphere

Use Retail-Thinking Strategies to Engage Patients:
- Create space for people to meet greet and spend time together
- Provide Activities and amenities to encourage users to stay
- Promote easy way finding system and circulation
- Create a stronger connection by using colorful and story telling landscape
